- Tools: Power BI, Microsoft Excel, BigQuery, Databricks, DBeaver, Looker Studio, RapidMiner, HubSpot CRM, FactoHR
- Languages: Vietnamese (Native), English (Professional), Mandarin (Intermediate)

PROFESSIONAL EXPERIENCE

Global Travel Xperts - Gaura Travel

Melbourne, VIC

Data Analyst

Aug 2023 - Jan 2026

- Led the design and delivery of the company's first consolidated customer database, integrating 17 years of customer, sales, marketing, and operational data into a unified analytics environment that became a core platform.
- Owned the end-to-end development of a consolidated digital marketing reporting ecosystem, defining business requirements, designing data models, building ETL processes, and delivering a scalable analytics solution that integrated multiple data sources into a single reporting environment.
- Partnered with stakeholders across Operations, Sales, Marketing, Finance, and Management to identify business challenges, prioritise data initiatives, and translate requirements into practical data solutions.
- Developed SQL, Python, BigQuery, and Power BI solutions supporting forecasting, operational planning, performance monitoring, and strategic decision-making, improving reporting efficiency by approximately 50%.

99Aupairs

Melbourne, VIC

Data Analyst Intern

Jun 2023 - Aug 2023

- Supported a major system transition project through data cleansing, mapping, validation, and remediation of business-critical datasets.
- Improved data accuracy and consistency by identifying and resolving data quality issues during migration activities.
